eLearning

COURSE DESCRIPTION

This **Autodesk Revit CORE: Dynamo for Revit** course offers mainly video-based learning modules, that explain a very high-level overview and introduction to visual programming using Dynamo for Revit. This course is designed to teach new users of both visual programming and Autodesk Dynamo, about the user interface, libraries and nodes. This course uses simple examples to teach users how to create their first visual programming scripts.

COURSE MODULES

- An Introduction to Working with Dynamo for Revit
- Navigating and Finding Libraries and Nodes
- Editing Revit Data with Visual Programming in Dynamo
- Working with Multiple Components in Dynamo for Revit
- Using the Dynamo Player in Autodesk Revit
